As you know, the Dukakis Health Group was co-organized by myself and Phil Johnston (Secretary of Human Services, Massachusetts), as a volunteer effort to advise and support Governor Dukakis in his quest for the Presidency.

We are now moving to formalize this effort as part of the campaign. With the help and direction of Bill Carito, Campaign Constituency Director, the Dukakis Medical and Health Council has been created.

You will soon receive a mailing from campaign headquarters asking you to become a member. Responsibilities will most likely include:

1. Expanding the health constituency.
2. Beginning to produce accurate issue information and advisories for campaign staff.

Further details will be forthcoming from national headquarters in Boston.

I very much appreciate your patience and your participation. Your help and your ideas are important to a Dukakis victory in November.
