RE: American G.I. Forum
Archives & Historical Foundation

Dear Mr. Jenkins:

You have been referred to me by persons who are in the archives business in connection with the possibility of retaining your services on the papers of Dr. Hector P. Garcia.

While you may not be aware, Dr. Garcia is a person who has been involved not only in the practice of medicine but in civil rights, school desegregation cases and is best known for his having founded the American G.I. Forum of the United States.

Throughout his career, Dr. Garcia has collected periodicals, books, letters and other memorabilia which consideration is being given to donate these papers to either Corpus Christi State University or Del Mar College.

I would appreciate very much if you would contact the undersigned so that we can determine whether you can lend us your services, for a professional fee of course, to appraise these papers.

Very truly yours,

Amador C. Garcia Member and Legal Advisor American G.I. Forum Archives & Historial Foundation
