Re: Memorial Medical Center - Surgery Renovation Project

Dear Mr. Peters,

On behalf of myself and our organization I would like to commend you and your Board of Managers for the correct selection of Salazar Construction, Inc. as the contractor for your surgery renovation project.

Our organization has followed this firm for years and watched it grow, mature and become a highly skilled professional and now International organization. The expertise which Mr. I. C. Salazar, President and his staff have shown throughout the years merits a decision such as yours. The numerous successful projects which we have either been directly involved in or have seen of Salazar Constructions', Inc. capabilities cannot but leave our City proud for firms such as this one to represent the quality of South Texas firms to not only South and Central Texas but to other areas of the world as well.

We intend to keep abreast of this project and look forward to its timely and satisfactory completion by this firm who is deserving of this project.

Yours very truly,

Francisco B. Rodriguez, III

President
