

Congress of the United States
House of Representatives
Washington, D. C.

August 11, 1949

Dr. Hector P. Garcia
3024 Morgan Avenue
Corpus Christi, Texas

Dear Hector:

Thank you for sending me the pay envelopes of some of the lower paid employees. I am returning them to you.

Some of the States have passed minimum wage legislation which applies to local industries and it has worked out quite well, particularly in North Carolina. We are now considering federal legislation which, of course, is limited constitutionally to those businesses engaged in interstate commerce.

We are trying to close up this Congress for a few months and I look forward to seeing you.

Sincerely,
