DOLPH BRISCOE
GOVERNOR

February 15, 1974

Mr. Richard Sandoval
657 Osage
Corpus Christi, Texas

Dear Mr. Sandoval:

We had a meeting with Dr. H.Q. Sibley, Executive Director of the Texas Animal Health Commission. The discussion was centered around your particular problem. Also discussed was the impact the new health regulations will have on swine ranchers throughout South Texas.

Dr. Sibley assured us that Dr. White or a representative would soon be visiting you to give advise and assistance.

We regret the impact these new regulations will have on your business, and on others in the same line of employment. We at some time are going to look into this situation and see how and in what way it can be alleviated. We are willing to assist you in whatever way is feasible. Please contact us if we can be of further assistance. I am enclosing my card for your convenience in contacting me.

Sincerely,
