Dear Dr. Garcia,

I would like to express to you my personal appreciation for the long years you have fought man's inhumanity to man. You started when very few were even concerned about it and it was even less popular a cause than it is today.

The information you presented to the Committee of 12 was valuable and useful to us. I am sorry we did not give you more time. I did not appreciate Mr. Hutson's behavior and regret that it happened.

Yours truly,

D. C. Brown, Jr.
