Dear Dr. Garcia:

Thank you for writing me with your concerns about higher education in South Texas.

I realize how vital a four year university is to South Texas. A top priority of mine has always been to enhance the educational system and to expand the opportunities at all levels.

If you wish to keep up with the progress of any bills relating to education or any other bills, you can call 1-800-252-9693.

Again, thank you for writing. Please let me know if I or a member of my staff may assist you on any matter in the future.

Sincerely,
