

Nov 17, 1964.

Dear Roberto:

Your mother and father both are doing fine. He is out of the hospital and working good. He made a complete recovery. Your mother is doing fine. She is walking and moving around.

I want you to go and see Mr Kimenez and he is supposed to help you get into a school or college. You will find him to be a very fine gentleman. So please go there.

Robert, I am your friend and I am also your advisor. I believe that you should stay in Washington and try to go to College there.

Here in Corpus you will find out that you will have trouble making a passing grade in school since you will have your mother's health problem to worry about. This would keep you busy all of the time and also worried.

You must think of yourself. You can get a wonderful experience over there and be a success. You must be patient in your efforts to go to College. Please keep on trying.

Hope you are attending the G.I. Forum meetings. My regards to all.

Your friend as ever.

Hector.
