Gentlemen:

In order to save myself time, I am writing you this joint letter to forward herein a list of appointments that have been made by Governor Daniel during his administration. You should keep this list with you and use it to combat any criticism during the present campaign that Governor Daniel has not given adequate recognition to our people.

In addition to the people listed, it is my understanding that after our PASSO Convention in San Antonio an accountant by the name of Johnny Martinez has been given employment in the State Budget Office and another one by the name of either Francisco Ruiz or Emanuel Ruiz has been employed by the Civil Disaster and Relief Agency in Austin. I will verify these two names and advise you definitely within the next two or three days. Both of these men have been given fairly responsible positions.

Sincerely yours,

Ed Idar, Jr.
