

Dear Doctor,

MAY 1972

Please excuse this delay. Your letter was forward to me by Jesus Perez and about that time we had my mother quite ill with flu - We had her in the hospital for four days and nights - She is home and is fine. We are so thankful.

I went to work to find the record at our San Fernando Church but somehow I am not able to locate anything on the Bawies - Somewhere there are records - and so my work goes on - Searching.

However, I am enclosing some material I have and I hope it will help you. When ever I find some record - and I will - I shall forward the information to you. So - for you, I hope the enclose information will help.

My best to all. I will get down to Del Rio for the State + to Corpus Christ to the National God willing - That's my plan - Adilita ^{over}

P.S. Mr.:

Until I can locate those records; on the Bowie Children, I can not and do not to this day know the names nor their padrinos — of the two children of Ursula + Jim Bowie. There seems to be a mix up of books here at the church.

Also many records have been removed or misplaced. I think maybe Monclova and then there is a possibility there could be some trace of a record in Austin — I am planning ~~a~~ a trip to Austin soon.
