Dear Friends:

Your undated letter to me concerning segregation of children of Mexican descent in certain public schools did not carry any of your addresses. I have delayed my reply until I could obtain them through our mutual friends.

I appreciate your calling this matter to my attention and assure you that the former opinions of this office have been made available to the school authorities whose duty it is to prevent such discrimination. I am sure you are familiar with our opinions on the subject.

I think you have proceeded correctly in bringing this matter to the attention of the State Superintendent of Public Construction and I presume

that you have also brought it to the attention of the Good Neighbor Commission. We will cooperate with them in every way possible. If this does not produce results, then of course the only other route left open is for you to bring specific actions as was done in the Delgado case.

Thanks again for calling this to my attention, and I hope our efforts will be helpful.

Sincerely yours,

Price Daniel
