

December 14, 1976

STATEMENT BY SENATOR LLOYD BENTSEN

I want to do everything possible to make the Navy change its mind about the proposed cutbacks at the Corpus Christi Naval Air Station, and I was encouraged by today's meeting in Washington. Representatives of President-elect Carter pledged to Corpus Christi community leaders that they will take a fresh, new look at the proposal and will not be bound by any decisions made by the current Administration. I take this pledge seriously. The President-elect understands that unemployment in South Texas is already too high and I think he will seek to avoid cutbacks like this which would drive it higher. In addition, with his background as a former Naval officer, I think he will be aware of the important role that this Naval facility plays in our nation's defense.
