Congressman John Young
The House of Representatives
Washington, D.C.

Dear Mr. Young

I am writing to you in reference to a letter I received from you sent to you by a Mr. Hector R. Garcia .D., involving IV1 Juan Nunez, dated 23 September 1969.

IV1 Juan Nunez had submitted all the information in his particular case to us and we immediately set about getting in through channels and getting a final answer. The paperwork came back to us on 29 October 1969 because it did not have sufficient information on one of the inclosures. This was the one from the M.D. which did not state the date she became ill, what specifically was the illness, and what the prognosis was.

IV1 Juan Nunez departed for his new duty station, Fort Ord, California, on 31 October 1969. Before he departed he was advised to write home and have the proper information sent to this unit. As of this moment, it has not arrived, but when it should action will be taken immediately

Sincerely yours,

William H. Castille
