Dr. Hector P. Garcia 1315 Bright City

Dear Dr. Garcia:

I am asking for your intervention concerning a memo received from R. H. Cummins, NJROTC Area Manager. Mr. Cummins has ordered Captain Traweek, NSI, of Carroll High School, to discontinue teaching Naval Science courses at Roy Miller High School.

The former Director of NJROTC authorized Carroll High School to teach Naval Science at Roy Miller High School for the 1987/88 school year; but not beyond the 1987/88 school year.

Our cadets have worked, under the umbrella of Carroll High School NJROTC, with great success. We have grown from one class of naval science to two classes of naval science, and have a projection of three classes for the upcoming school year.

As we continue to develop our academic program, it is important that naval science continue at Roy Miller High School. I applied for a unit and have not received acknowledgement from the Navy.

We are pre-registering students for the upcoming school year, thus a quick response is appreciated to meet deadlines on course offering transfers.

Any and all consideration is greatly appreciated.

Sincerely,

Conrado Garcia, Principal Roy Miller High School

To Whom It May Concern:

Please consider our application for a NJROTC Unit here at Roy Miller High School, Corpus Christi, Texas. We currently teach naval science which is affiliated with the Mary Carroll High School Unit and would very much like to have our own unit established here at Miller.

Thank you for your consideration of our application.

Sincerely,

Conrado Garcia, Principal Roy Miller High School
