I have already told many of my associates that well intentioned men like you further strengthen our belief in our democratic system and free society for we are convinced that you in New Jersey, not having a serious migratory worker problem, would have to be motivated by a desire to help our citizens at large rather than to fulfill selfish need. Please give my best regards to your able committee council, Fred Blackwell and please tell him to let me hear from him soon.

Sincerely,

R. P. (Bob) Sanchez, Chairman  
Committee on Migratory Labor  
American GI Forum of the U. S.
