Dear Dr. Hector:

The medical record file of Juan Guerra was received in the weekend mail, and I have returned two complete copies of the file to you today. I have also retained a copy for my reference and have placed the original file in the hands of Army officials.

Army Headquarters in Washington advised me today that Guerra was medically evacuated to Brooke Army Hospital, San Antonio, Texas, on December 31 and I will stay in touch with this case in an effort to be helpful in every further way possible.

With kindest regards, I am

Sincerely yours,

John Young
