Dear Dr. Garcia:

Enclosed you will find a packet of information. As you can see La Raza Unity Council has been very active and quite effective in our community.

Mr. Al Rodriguez, a mutual friend and now a resident of Colo. Springs became aware of our need to generate funds in order to continue our operation. He suggested that perhaps you would be able to provide us with some direction in locating funds to continue our activities. Because institutional change is our main concern we find many of the traditional forms of funding not accessible. The political climate that has been created by our activities has produced many beneficial returns to our people, however monetary returns have not been received. As you can see we are involved in many projects that will require more time than our allotted funded period will cover. If you can be of any assistance to us it will be extremely appreciated. We are in a position to propagate very positive results in an area where change for Chicanos is just now beginning.

I look forward to hearing from you.

Sincerely,

Geri Maestas
