This day an age when educators and public officials combat crime and drugs the only avenue, to reducing this unwanted habits is to get involved. Adults and youth and what better way than through the arts and what a better way to get motivated? Our own culture and heritage, the expression of the most unique citizen.

Let it be known that as long as we have the support of our leaders in our community our work will continue and it will be gratifying to see the cultivation of the talent here in South Texas brought out so the world may see it and perhaps with their support we can produce scholarships for these deserving talents.

I know that you as leaders of our community will support us all the way, we thank you and God Bless you.
