Dear Dr. Garcia:

I am pleased to send you a copy of Our Tejano Heroes with our thanks and our best wishes.

We appreciate very much your allowing Sammie Munson to include your story in her book for middle readers in elementary and junior high schools.

We believe that stories such as yours will provide inspirational reading not only for our children but for adults. We are pleased--and proud--to have served as publisher and to make the book available to the school children of Texas and over the nation.

Spanish is my second language and so I grew up with a deep appreciation of the hispanic culture. As you know, there is a "dicho" in Spanish that says: "La persona que habla dos lenguas; vale dos personas." I was editor of the Robstown newspaper in the late 40s when you were organizing the GI Forum. My good friend, Ramon Barrera, was active from the beginning. You did a good thing and it will continue to bear good fruit.

If you were to want additional books for gifts, we are pleased to make them available to you at the trade discount of 40% in any amount. Thanks again for your kindness in allowing us to feature your story in Our Tejano Heroes.

Sincerely,

EDWIN M. EAKIN, President
