Dear Sir:

On behalf of the staff, parents, and especially the children of the Infant Development Program, please accept our sincere thanks for your gift. Your contribution of \$20.00 has made it possible for the ball to start rolling on the purchase of equipment for our children's playground.

You have made our goal possible. A playground uniquely designed for our children has been a goal for our Infant Development Program. True, we need a playground to meet a requirement for our license. From the standpoint of our children, a playground will provide so much towards their developmental growth. In addition, the playground will provide so much enjoyment and just plain "fun".

It is truly heartwarming to have friends like you. Keep in mind that you are always welcomed to visit our program, especially to see the playground you made possible.

Again, thank you. Best Wishes.

Sincerely,

Paul Flores
Parent Support Group
